Freedom Ryder E1

reactive adaptations Mako.jpg
The Freedom Ryder E1 is an electric-assist handcycle built for real-world performance on paths, bike lanes, and mixed surfaces. It features a 500W hub motor with 55 Nm torque, a removable 48V 14Ah battery offering 30–70 miles of range per charge, and a thumb throttle for extra assist on starts or climbs. Frame combines 7075 aircraft-grade aluminum (rear) and chromoly steel (front), stress-tested at 500 lbs for 400,000+ cycles. Wide adjustment range includes footrests with up to 8" in/out positioning and a multi-position crankset. Equipped with a 1×9 Shimano drivetrain, 180mm disc brake, and memory foam seat. Arrives 75% assembled. Weight: 64 lbs with battery. Available in Green, Silver, and Blue.
