

Prone

Description: Off-road style handcycle where the user is kneeling and facing downwards

 Pros	 Cons
Good for descending as you have a handlebar as in a regular bike Can use arms to balance off of rocks	Harder to transfer into Harder to pedal and steer Less comfortable

Handcycle models

Handcycle	Price	Image
Sport-On Explorer	\$13,399 has e-assist has suspension	
Reactive Adaptations Bomber RS	\$11,950 has suspension	
Reactive Adaptations Hammerhead	\$15,100 has suspension
