

# Maddiline Carbide3

reactive adaptations Mako.jpg

The Maddiline Carbide3 is a world-first adjustable carbon race handcycle featuring a revolutionary fork that adjusts both height and reach for a truly personalized fit. Built with a full carbon frame and fork, it offers a thru-axle system for maximum stiffness, 3D-printed ergonomic handgrips, a carbon brake lever for race-ready control, high-performance disc brakes, and adaptive options for tetraplegic athletes including elbow shifting and braking. Electronic drivetrains from SRAM and Shimano available. Weight: 10.6–11.2 kg.
