Wiki Guides

- Welcome to the Able Bodied Wiki

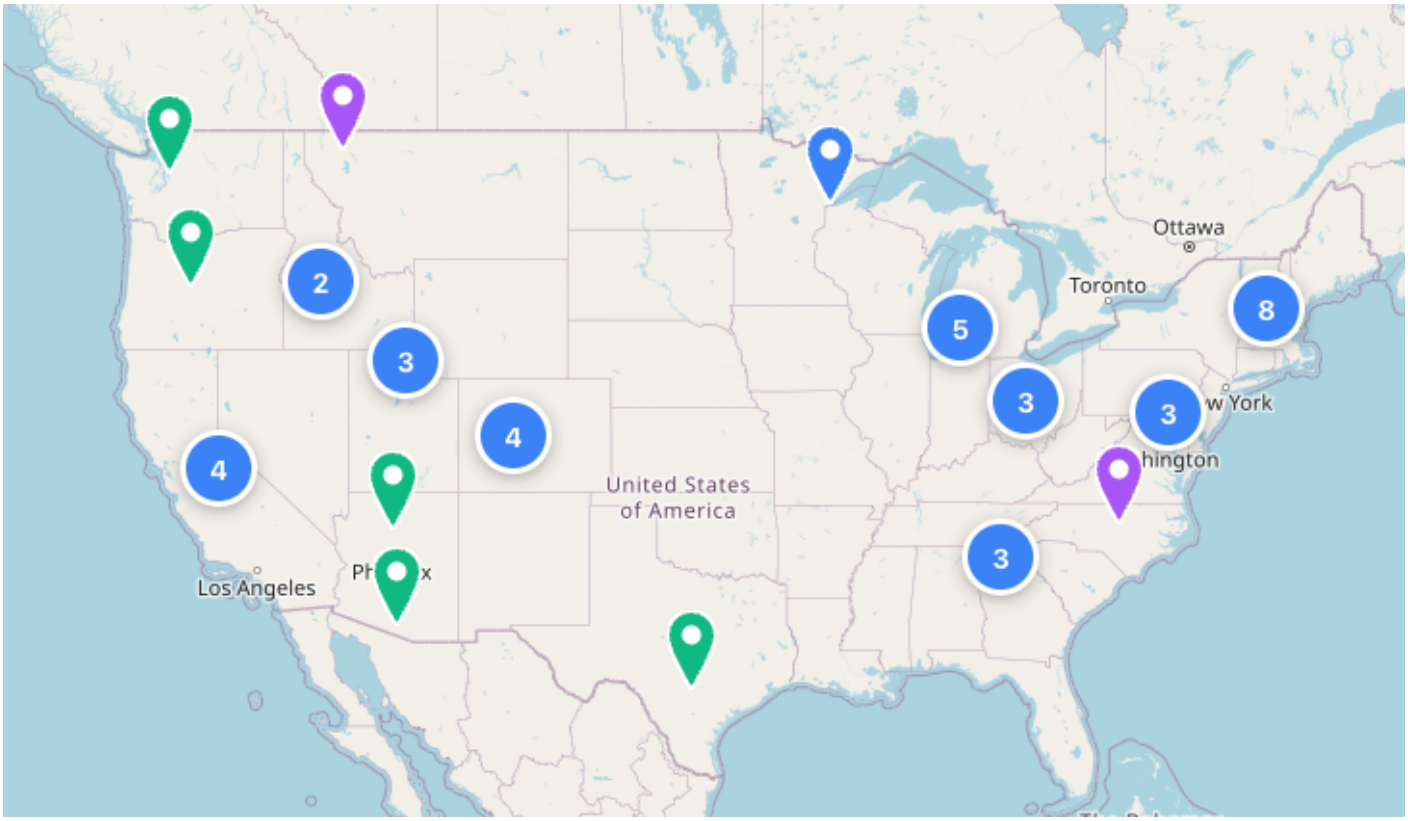

Welcome to the Able Bodied Wiki

This is meant to be an open source resource to help connect people with disabilities around the world (per our mission at www.ablebodied.org).

Below you will find a map of handcycling facilities as well as links to our various guides. If you apply for our Get1Help2 program, we will give you access to our map of #AbleBodiedAmbassadors, who can help you get into the sport of electric assist handcyling.

Handcycling Organization Map

Click on the map below to find a location that rents or has lessons with the handcycle you are interested in

Handcycle guides

- Handcycle guide - Our open source guide to all the handcycles out there

- US Grant guide - Our guide to the different grants and grant databases available
- aMTB camp guide - List of multi-day aMTB camps, the best way to try multiple handcycles and meet cool wheelers.
